BRECK'S NEWEST PEAK! PEAK 6

FEATURING 543 ADDITIONAL ACRES
OPENING WINTER 2013-14

This season the biggest ski resort expansion in North American in more than a decade will take place as Breckenridge Ski Resort adds Peak 6 to their skiable terrain during the 2013/14 season.

This huge expansion will provide more above tree line skiable terrain for our intermediate & expert skiers and riders as well as allow for a better guest experience by creating more space for guests to explore.

This is the biggest news in the ski industry in a very long time, and we're excited to be able to share this historic event with you!
