## BRECK SUMMER CAMP THEMES

### **Week 1 (June 16-June 20): Snow In Summer?**

Is that snow I see? Exploring weather in the high country. Campers will explore the reaming snow on the mountain, see the water cycle in action, and gain an understanding of weather patterns.

### **Week 2 (June 23-June 27): Utes, Arapaho, Comanche, Miners and Skiers?**

Since 1500, Native Americans have inhabited the plains and mountains of Colorado. Almost 20 tribes have called Colorado home at one point or another. This week we will be focusing on Colorado history and heritage.

### **Week 3 (June 30-July 4): This Land is Your Land, This Land is My Land**

Imagine the world 10 years from now. 50 years. 100 years. What does our natural resource supply look like? In this camp we will focus on sustainability, and making sure that future generations will have water, materials, and resources.

### **Week 4 (July 7- July 11): Golddiggers**

Eureka! There's gold in them thar hills! We will learn about Colorado Mining History through activities and games. We'll even get to mine for some gold and visit a historic mine! Good Luck!

### **Week 5 (July 14-July 18): Light My Fire & Leave No Trace**

Two of the most important factors in the wilderness are food and fire. This week we will discuss some of the best foods to take into the wilderness, ways to cook the food, and best practices for what to do when you're done eating. Highlights Include: Trail Mix, Solar Ovens, and Bear bags.

### **Week 6 (July 21- July 25): We will Rock You**

Science ROCKS! Literally. From the low-lying eastern plains, to the central peaks soaring more than 14,000 feet above sea level, to the western red-rock canyons, this week we will delve into the unique geologic history of Colorful Colorado. This week will ROCK your world.

### **Week 7 (July 28- August 1): LOST!**

Shipwrecked on a desert island? Plane crashed on a mountainside? Stranded in the backcountry? Together, we will learn wilderness survival skills and emergency preparedness for the worst possible scenarios.

### **Week 8 (August 4- August 8): Flora & the Forest**

Identify trees, admire flowers, wack the weeds, and contemplate the pine beetle. All this (and more) as we explore the flora and forest of Breckenridge through nature hikes and garden tours. We'll even get a chance to plant our own seeds!

### **Week 9 (August 11- August 15): Are we there yet?**

Is this map upside down?! This week at camp we will look more closely at map reading and orienteering. Campers will discover compasses, make maps, and search for buried treasure.

### **Week 10 (August 19- August 22): Mountain Lions, and Moose, and Bears, OH MY!**

This week we will be learning about Colorado Mammals. Through explorations stations, art, and outdoor adventures we'll search high and low for signs of bear, deer, marmots, and so much more.

\*Themes are subject to change.
