## MOUNTAIN PREPAREDNESS

KNOW BEFORE YOU GO

### SUN PROTECTION

With every 3,000ft increase in altitude, UV levels rise by 10%. We recommend eye protection and Supergoop! Broad Spectrum sunscreen products to ensure protection from UV rays.

### LIGHTNING/THUNDERSTORMS

Lifts and activities may close without notice due to inclement weather. Seek shelter immediately when such weather is in the area; lightning can strike from miles away.

### HIGH ALTITUDE ENVIRONMENT

Take it easy at first - plan short trips until you are acclimated and drink plenty of water.

### ADEQUATE CLOTHING

Be aware - mountain weather changes quickly. Bring a raincoat, wear closed-toe shoes and consider a sweater or fleece.

### HEALTH AND SAFETY

Activities have height, weight and age requirements and may require guests to walk without assistance. If you are pregnant, or have any serious health issues, you should consult a physician prior to participating in any activity.

### MULTI-USE

Be aware that trails and roads at Breckenridge Resort are used for many purposes during the summer. Mountain bikes, hikers, horses, motorized vehicles and construction equipment may be encountered at any time.

### WILDLIFE PREPAREDNESS

Breckenridge Resort is part of the White River National Forest and you should be aware of the possibility of running into many types of wildlife. Please be cautious and don't feed, approach, take close pictures or harass animals.

## ALPINE CAMP ACTIVITIES
